

EMBLEM AIR LINE LUBE 100

EMBLEM Air Line Lube 100, as the brand name indicates, is formulated for use in compressed air line lubricators. This product contains an emulsifier to aid in keeping the lines free of moisture as it lubricates, prolonging the life of air driven components. A rust preventative has been added to protect metal parts from rust.

Typical Properties

Viscosity, SUS @ 100 °F	105-110
Gravity °API	28-30
Flash Point COC °F	380
Fire Point COC °F	420
Color	2
