

EMBLEM PENETRATING OIL

EMBLEM Penetrating Oil is the ultimate product for freeing all rusted and corroded metal parts. The unique formula of "creeping" agents and oils which, in combination permits faster action than any other products of its type.

USES

Industry:

Any frozen, corroded or rusted fitting, nut bolt, valve, piston or ring, virtually anything stuck. Ideal for lubrication of tight fitting parts.

Automotive:

Heat rises, bolts, locks, hinges, brake cables, linkages and manifold bolts.

Farm:

Ideal for farm machinery maintenance.

General:

Provides easy penetration for wood or metal screws; excellent lubrication for any frozen metallic part; thousands of uses.
