

EMBLEM ALUCUT EP

EMBLEM Alucut EP is formulated from highly refined paraffinic base oils and an lubricity additive which provides a low viscosity, mineral, fatty oil product. **EMBLEM** Alucut EP is ideal for light duty machining on free machining steels, aluminum, and copper. It provides a good surface finish and extends tool life.

Typical Properties

Viscosity, SUS @ 100 °F	50-55
Gravity °API	35.9
Flash Point COC °F	175
Fire Point COC °F	195
Pour Point °F	+ 20
Sulpher %	0
Lard Oil %	18
