

## EMBLEM MF-222

**EMBLEM** MF-222 is an engine, transmission and differential flushing oil additive.

Recommended for use at 12% by weight, 10% by volume in 100 neutral oil (preferably naphthenic) for engine flushing. Also 24% by weight and 20% by volume in 100 neutral oil (preferably naphthenic) for transmission or differential flushing.

### Physical Characteristics

Viscosity, @ 40°C cST	3.0
Pounds per U.S. Gals @ 15.6°C	9.08
Pounds per IMP Gal @ 15.6°C	10.9
Specific Gravity @ 15.6° C(60°F)	1.09
Flash Point (Method) PMCC ° C	90
Pour Point °C (°F )	- 30, (-21)

### Chemical Characteristics

Minimum % Weight Chlorine	25.0
Maximum % Weight Chlorine	28.0

**Note:** This is classified as a combustible product and we recommend as a minimum the use of neoprene or nitrile rubber gloves and safety glasses or chemical splash goggles. The Material Safety Data Sheet should be consulted for specific information and for information on health and safety when handling this product.
